

256GB Computer memory DDR5 for Lenovo ThinkSystem SR635 V3 (7D9H / 7D9G) RDIMM 3DS

PHS-memory® - computer memory with 100% quality

- many years of IT competence
- Free support for optimal configuration and product selection
- High availability through professional warehouse management
- Fast delivery in throughout Europe
- Short response times and professional order processing due to full digitalization throughout the entire process with complete traceability
- Incoming goods inspection include checks of the DRAMs, PCBs and the programmed SPDs in order to exclude possible errors (Controlled BOM).
- PHS-memory® brand memories guarantee 100% compatibility to the specified system.
- PHS-memory® memories can be used together with existing memories in the device depends on to the configuration rules of the system.
- The "fallback option" in the SPD of PHS-memory® allows DRAMs with higher clock rates to be operated together with older memory modules with lower clock rates within the system.
- Products with unique serial number for service and warranty
- Pre-sales and after-sales support by technically trained personnel

Memory Specification

Memory size	256GB		
Memory technology	DDR5		
ECC support	ja		
JEDEC Norm	PC5-38400R		
DRAM Organization	3DS 4H 16Gx4		
Rank	8Rx4 (2S4Rx4)		
Туре	RDIMM (ECC Registered) 3DS		
Number of pins	288 Pin DIMM		
Memory data transfer rate	4800MHz		
Voltage	1,1 Volt		
Speciality	3DS		
Operating temperature	0° C - 85° C		
Storage temperature	-40° C - +95° C		
RoHS compliant	Yes		
SKU	SP460713		
EAN	4067488442445		

overRAMing - maximize your RAM

Most systems - including the Lenovo ThinkSystem SR635 V3 (7D9H / 7D9G) - can be upgraded with more memory than originally specified by the device manufacturer.

Therefore, our memory specialists continuously analyze new memory solutions in selected systems. Due to improved manufacturing technologies, new memories with higher performance and capacity will be tested for stability and functionality.

Then the new memory solutions are released for the respective systems. Use the benefits of larger computer memory capacity with the PHS-memory® overRAMing memory solutions.

Note: The module specified in this datasheet is one of several possible configurations available under this part number.

Some details may differ from the specifications described here and the illustration, but have no negative influence on the functionality.

System Specifications

The memory is 100% compatible with this sytem:

System manufacturer	ufacturer Lenovo		
Device type	Server		
Device family	ThinkSystem		
Device series	SR635 Serie		
Device name	ThinkSystem SR635 V3 (7D9H / 7D9G)		
Maximum memory*	3TB / 1,5TB according to manufacturer		
Number of memory sockets	12		
Annotation	Beim Systemstart wird bei diesem System eine spezielle memoryabfrage gestartet. Die memory des Systemherstellers (manufacturer Original) besitzen neben den technischen Kennziffern noch eine manufacturernummer. Anhand der manufacturernummer erkennt das System die memory als "qualifiziert" Bei den kompatiblen memoryn ist diese manufacturernummer nicht vorhanden. Die technischen Kennziffern sind identisch. Beim Einsatz der kompatiblen memory muss beim Systemstart eine Meldung per Taste bestätigt werden. Nach dieser Bestätigung funktionieren die kompatiblen memory ebenfalls problemlos im System.		

^{*} The specifications for the maximum memory upgrade may differ from those of the manufacturer Lenovo. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Memory modules with our overRAMing-symbol are approved by us for maximum memory expansion.

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
 - Do not touch the gold pins of the memory module
 - Only touch the sides of the memory module
 - Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.

Further memory options for Lenovo ThinkSystem SR635 V3 (7D9H / 7D9G)

Size	SKU	Technology	Туре	Number of pins	Brand	Reference no.
16GB	SP460707	DDR5	RDIMM (ECC Registered)	288 Pin DIMM	PHS-memory®	4X77A81437

PHS-memory® warranty

Every PHS-memory® is equipped with a 5-years-warranty of perfect operation. If the RAM module is defective or fails within 5 years of purchase when used properly, you will receive an appropriate RAM module free of charge. If a suitable memory module is no longer available, we will refund the purchase price.
