PHS-memory® - computer memory with 100% quality

- many years of IT competence
- Free support for optimal configuration and product selection
- High availability through professional warehouse management
- Fast delivery in throughout Europe
- Short response times and professional order processing due to full digitalization throughout the entire process with complete traceability
- Incoming goods inspection include checks of the DRAMs, PCBs and the programmed SPDs in order to exclude possible errors (Controlled BOM).
- PHS-memory® brand memories guarantee 100% compatibility to the specified system.
- PHS-memory® memories can be used together with existing memories in the device depends on to the configuration rules of the system.
- The "fallback option" in the SPD of PHS-memory® allows DRAMs with higher clock rates to be operated together with older memory modules with lower clock rates within the system.
- Products with unique serial number for service and warranty
- Pre-sales and after-sales support by technically trained personnel

Memory Specification

Memory size	256GB	overRAMing -
Memory technology	DDR5	maximize your RAM
ECC support	yes	
JEDEC Norm	PC5-38400-R	overRAMing
DRAM Organization	3DS 4H 16Gx4	Project
Rank	8Rx4 (2S4Rx4)	
Туре	RDIMM (ECC Registered) 3DS	Most systems - including the A RS720-E11-R12U - can be upgr
Number of pins	288 Pin DIMM	with more memory than origin
Memory data transfer rate	4800MHz	specified by the device manufa
Voltage	1,1 Volt	Therefore, our memory special continuously analyze new mem
Speciality	3DS	solutions in selected systems. I improved manufacturing
Operating temperature	0° C - 85° C	technologies, new memories w higher performance and capac
Storage temperature	-40° C - +95° C	be tested for stability and functionality.
RoHS compliant	yes	Then the new memory solution released for the respective sys
SKU	SP488115	Use the benefits of larger com memory capacity with the PHS
EAN	4067488519451	memory® overRAMing memor solutions

Note: The module specified in this datasheet is one of several possible configurations available under this part number.

Some details may differ from the specifications described here and the illustration, but have no negative influence on the functionality.

System Specifications

The memory is 100% compatible with this sytem:

System manufacturer	Asus
Device type	Server
Device family	Server R
Device series	RS720 Serie
Device name	RS720-E11-R12U
Maximum memory*	8TB
Number of memory sockets	32

* The specifications for the maximum memory upgrade may differ from those of the manufacturer Asus. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Memory modules with our overRAMing-symbol are approved by us for maximum memory expansion.

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
- Do not touch the gold pins of the memory module
- Only touch the sides of the memory module
- Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.

Further memory options for Asus RS720-E11-R12U

Size	SKU	Technology	Туре	Number of pins	Brand	Reference no.
16GB	SP488109	DDR5	RDIMM (ECC Registered)	288 Pin DIMM	PHS-memory®	
24GB	SP488116	DDR5	RDIMM (ECC Registered)	288 Pin DIMM	PHS-memory®	
32GB	SP488111	DDR5	RDIMM (ECC Registered)	288 Pin DIMM	PHS-memory®	
32GB	SP488110	DDR5	RDIMM (ECC Registered)	288 Pin DIMM	PHS-memory®	
48GB	SP488117	DDR5	RDIMM (ECC Registered)	288 Pin DIMM	PHS-memory®

256GB	SP488115	DDR5	RDIMM (ECC Registered) 3DS	288 Pin DIMM	PHS-memory®	

PHS-memory® warranty

Every PHS-memory® is equipped with a 5-years-warranty of perfect operation. If the RAM module is defective or fails within 5 years of purchase when used properly, you will receive an appropriate RAM module free of charge. If a suitable memory module is no longer available, we will refund the purchase price.
