Your benefits

- ✓ verified quality memory
- ✓ 5 years warranty
Warranty details see last page
- ✓ 100% compatible
- ✓ free support on our hotline
- ✓ fast delivery

PHS-memory® - computer memory with 100% quality

- many years of IT competence
- Free support for optimal configuration and product selection
- High availability through professional warehouse management
- Fast delivery in throughout Europe
- Short response times and professional order processing due to full digitalization throughout the entire process with complete traceability
- Incoming goods inspection include checks of the DRAMs, PCBs and the programmed SPDs in order to exclude possible errors (Controlled BOM).
- PHS-memory® brand memories guarantee 100% compatibility to the specified system.
- PHS-memory® memories can be used together with existing memories in the device - depends on to the configuration rules of the system.
- The "fallback option" in the SPD of PHS-memory® allows DRAMs with higher clock rates to be operated together with older memory modules with lower clock rates within the system.
- Products with unique serial number for service and warranty
- Pre-sales and after-sales support by technically trained personnel

Memory Specification

Memory size	4GB
Memory technology	DDR3
ECC support	ja
JEDEC Norm	PC3-10600E
Type	UDIMM ECC (ECC unbuffered)
Number of pins	240 Pin DIMM
Memory data transfer rate	1333MHz @ CL9
Speciality	-
Board dimensions	133,35 x 30 (LxB mm)
Operating temperature	0° C - 85° C
Storage temperature	-40° C - +95° C
RoHS compliant	Yes
SKU	SP169967
EAN	4055069398373

Note: The module specified in this datasheet is one of several possible configurations available under this part number.
Some details may differ from the specifications described here and the illustration, but have no negative influence on the functionality.

System Specifications

The memory is 100% compatible with this system:

System manufacturer	HP
Device type	Server
Device family	ProLiant
Device series	BL465 Serie
Device name	ProLiant BL465c Gen7 (G7)
Maximum memory*	512GB
Number of memory sockets	16
Annotation	You can use either ECC UDIMM or RDIMM memories. These two different technologies can not be operated together in the system. Memory slots for which no processor is available must not be equipped.

* The specifications for the maximum memory upgrade may differ from those of the manufacturer HP. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Information on memory allocation

Information on memory configuration

- Die maximale capacity of 512GB insgesamt bzw. 256GB pro CPU erreichen Sie durch RDIMM memory.
- Mit UDIMM ECC memory ist das Maximum bei 64GB pro CPU bzw. 128GB insgesamt erreicht.
- memorysteckplätze für die kein Prozessor vorhanden ist dürfen nicht bestückt werden
- Sie können entweder ECC UDIMM or RDIMM memory verwenden. Diese beiden verschiedenen Technologien können nicht zusammen im System betrieben werden
- Bei einer Aufrüstung sollten Sie deshalb wissen, welche memory bereits vorhanden sind or komplett auf RDIMM aufrüsten.
- Our memory team will be happy to help you choose the right memory and configure your server.

memory allocation for system performance

- Optimal performance is achieved by 4 or 8 identical memories per CPU
- The memory should be populated identically per CPU (mirrored to the other CPU).

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:

- Do not touch the gold pins of the memory module
- Only touch the sides of the memory module
- Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.

Further memory options for HP ProLiant BL465c Gen7 (G7)

Size	SKU	Technology	Type	Number of pins	Brand	Reference no.
4GB	SP169967	DDR3	UDIMM ECC (ECC unbuffered)	240 Pin DIMM	PHS-memory®	593923-B21
8GB	SP169973	DDR3	RDIMM (ECC Registered)	240 Pin DIMM	PHS-memory®	604502-B21
8GB	SP169968	DDR3	UDIMM ECC (ECC unbuffered)	240 Pin DIMM	PHS-memory®	
16GB	SP169970	DDR3	RDIMM (ECC Registered)	240 Pin DIMM	PHS-memory®	627808-B21
32GB	SP169971	DDR3	RDIMM (ECC Registered)	240 Pin DIMM	PHS-memory®	627810-B21

PHS-memory® warranty

Every PHS-memory® is equipped with a 5-years-warranty of perfect operation. If the RAM module is defective or fails within 5 years of purchase when used properly, you will receive an appropriate RAM module free of charge. If a suitable memory module is no longer available, we will refund the purchase price.
