System Specifications

The memory is 100% compatible with this sytem:

System manufacturer	HP	
Device type	Server	
Device family	ProLiant	
Device series	DL300 Serie	
Device name	ProLiant DL365 Gen11 (G11)	
Maximum memory*	6TB	
Number of memory sockets	24	
Device series Device name Maximum memory*	DL300 Serie ProLiant DL365 Gen11 (G11) 6TB	

^{*} The specifications for the maximum memory upgrade may differ from those of the manufacturer HP. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
 - Do not touch the gold pins of the memory module
 - Only touch the sides of the memory module
 - Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.
